Work Experience

Zeta / UX Designer - I

Dec 2024 – Present

Worked on PayZapp briefly then moved teams to handle US and UK based clientele

- **PayZapp** - Worked on Recharges and Bill payment modules. Includes projects requiring enhancement in existing features, new features, demo work to expand client base and other in-house experimental initiatives
- **Lumen**: Collaborated with senior designer and worked on building a 0 → 1 credit app product end to end for the UK market, targeted primarily towards the below prime users
- **Vera**: Worked on Rewards module of a 0 → 1 US based credit card app product, targeted mainly towards the near prime and prime users. Worked on the delight elements of the app and reward ecosystem
- **Ryze, Neo**: On-going project - Currently working on experimenting with Branding and retention based ideas for stealth-mode projects. Heavily using AI integrated workflows and quick prototyping methods.

CodeChef / Product Designer (Solo)

April 2023 – Dec 2024

Major Product Initiatives

- **Driving Growth in Revenue Generation Cycle** - Actively participated in improving the revenue of the product. Studied user data for product ideation and execution that led to 2X likelihood in premium usage conversion amongst users. Roughly 200% increase in yearly purchase numbers
- **Driving Growth in Retention of Learners**: On-going project - Currently working on driving the retention of the learners on platform. Experimenting with multiple solutions to craft engaging learning experience on and off the platform.

Groww / Graphic Design Intern

Sep 2022 – Feb 2023 · 6 mos

- **Venue and Brand Identity Design** - Trading Conclave Ahmedabad - Led the design of venue aesthetics and brand identity for a major trading event. Achieved a 50% increase in social media impressions on event creatives.
- **Ab India Karega Invest** - Creatives and Marketing Artifacts - Redesigned and developed social media creatives and graphics for this flagship recurring event, enhancing its visual appeal and brand consistency.
